Sub: Calibration Status of Real-time Monitoring Instruments.

A self-monitoring of compliance has been initiated in the State and the industries have installed real-time monitoring instruments as part of it. As per available record you have installed Continuous Stack Emission Monitoring System (CSEMS), Continuous Ambient Air Quality Monitoring System (CAAQMS) and Continuous Effluent Monitoring System (CEMS) at your premises for the stated purpose. It is hoped that the real-time monitoring instruments are functioning uninterruptedly and the protocol of calibration is being taken care as per requirement.

In view of above it is requested to furnish following information for examination and record :

1. Date and time of last two calibrations of instrument alongwith screen-shots. Brief note about the procedure adopted for calibration.
2. Graphical and tabular reports of above calibrations. This report should be system generated.
3. Screen shots of Data Acquisition & Handling System (DAHS) installed at your end.
4. Diagram or schematic showing data flow from analyser to the URL/Static IP provided to the M.P. Pollution Control Board. All the elements, including data acquisition & handling system (DAHS) and data output type, whether digital or analog, must be distinctly shown in the diagram.
5. Copy of approval certificate (TUV, MCERTS, USEPA) of Monitoring systems/Analysers.
6. Copy, preferably soft copy, of instrument manual.
7. Backup copy of real-time monitoring data since the commissioning of systems.

A timely reply, preferably within 10 days time, is thankfully anticipated. The reply may also be sent through E.mail on ercmpcb@nic.in for ease and swift communication.

Yours Faithfully,

(A. A. Mishra)
Member Secretary
