**Sub: Non Compliance of Provisions of Real-Time Monitoring Protocols - reg.**

Ref. : 1) This office letter no. 479/HOPCB/ERC/2019, 409/ERC/HOPCB, dt.29.03.19, 435/ERC/ dt.22.05.2019 and Email dt 28-29.08.2020.

2) Instructions by Chairman during review meeting on 09.11.2020.

Your immediate attention is drawn to the above-referred letters vide which it was requested to ensure integration of industries under your jurisdiction and transmission of real-time monitoring data to the Central Server at Environment Surveillance Centre. All the required tools for establishing industries connectivity with Central Server, viz. API, Encryption key etc, have already been shared with the industries long back.

It has been brought to my notice that some of the industries have yet not established connectivity with Central Server and some have not even installed the real-time monitoring systems for self monitoring mechanism. In addition to this there is gap of data from some industries since last couple of months. This is a grim picture and needs to be attended on priority. In view of this pursue the non-compliant establishments for needful action under your jurisdiction. A list of such establishments is attached herewith for ready reference.
