Guna/Dewas/Katni/ Dhar/Ujjain/ Pithampur

**Sub: Two Day Refresher Workshop on Real-time Monitoring Technology.**

As you are aware that the Govt. of India has developed a self-regulatory mechanism for industries. As part of self-monitoring of compliance the industries have installed real-time monitoring systems at their establishments and have provided credentials to the MPPCB to access the real-time data.

Since this technology is new, a three-day State level workshop was organised in July 2017 for adequate exposure and skill enhancement of Boards' officials in order to ensure proper implementation of real-time monitoring mechanism in the State.

The CPCB has recently come out with revised guidelines on real-time monitoring. In the wake of this, and to give exposure to the current developments, a two-day Refresher Workshop has been planned as follows to educate the Board's officials for clear understanding on the subject :

Date : 24 – 25 May 2018

Time : 10.00 am to 06.00 pm

Venue : New Conference Hall, MPPCB Head Quarters, Paryawaran Parisar,  
E-5 Sector, Arera Colony, Bhopal – 462016

Contact : Dr. Rajendra Chaturvedi, Scientist, MPPCB, Bhopal

Ph. : 0755-2469180 (O), 8989879758 ; E.mail : ercmppcb@nic.in

It is requested to nominate two members from your office to take benefit of this workshop for better implementation of real-time monitoring programme under your jurisdiction. Send the names of participants to the contact person in advance. It will be good if you communicate your expectations from this workshop and the problems, if any, that you are facing in implementation of this new technology. A detailed programme schedule shall be followed shortly.

Yours Faithfully,

  
(A.A. Mishra)  
Member Secretary
